EDUCATION

Andinet International High School — Addis Ababa, Ethiopia
High School Diploma — GPA: 3.5/4.0 — *Expected May 2027*
High School Coursework: Math, Physics, Computer Science, Chemistry, English, Biology
Advanced Self-Study & Certifications: MIT OCW 18.01 Calculus I & 18.06 Linear Algebra (Strang), Harvard CS50, Imperial College Machine Learning, Penn Calculus

TECHNICAL SKILLS

Languages: Python, Javascript, SQL, Bash, Typescript, HTML/CSS
Data Science & Quantitative: Pandas, NumPy, Statsmodels, vectorbt, Matplotlib, BeautifulSoup4, PyPDF, PdfPlumber
Web Frameworks & Tools: React, Tailwind CSS, Firebase, Docker, Git, GitHub Actions, Netlify, Cloudflare
Focus Areas: Quantitative Finance, Algorithmic Trading Systems, Full-Stack Software Architecture

TECHNICAL PROJECTS

Statistical Arbitrage (StatArb) Trading Bot — *2026 – Present*
Python · Pandas · Vectorbt · Statsmodels · NumPy
- Engineering an algorithmic trading bot and backtesting engine to identify and exploit mean-reverting statistical relationships between correlated financial assets.
- Developing automated financial data pipelines for historical price retrieval, cleaning, and feature engineering to rigorously test strategy performance under simulated market conditions.

Research Paper — *2026 – Present*
Quantitative Finance · Data Analysis · Academic Writing
- Wrote a comprehensive research paper analyzing the economy and government treasury bills of East African nations: Kenya and Ethiopia and direct comparison of the real yields of these nations against FX depreciation and answering the question "Whether to invest?" by applying university-level mathematical concepts.
- Synthesized data-driven findings into a formal academic format, bridging self-taught software engineering with rigorous quantitative analysis.

Business Club Website — *2025 – Present*
React · Tailwind CSS · GitHub Pages
- Built **first student-club website in school history** for Business Club (co-founded); site remains actively maintained.
- Designed responsive UI; project serves as club's digital backbone for outreach and event promotion.

Newspaper Club Full-Stack Site — *2025 – Present*
React · Firebase · Tailwind CSS · Netlify
- Developed and deployed full-stack club website with Firebase backend as club Treasurer.
- Manages weekly articles for 200+ readers; first dedicated website in club's history.

Personal Portfolio — nahomtmariam.com — *2025 – Present*
React · Tailwind CSS · Cloudflare · GitHub Pages
- Custom portfolio on personal domain showcasing projects, GitHub activity, and self-study progress.

EXPERIENCE & LEADERSHIP

Addis Asqual — Addis Ababa, Ethiopia
Website Administrator (Internship) — *2026 – Present*
- Maintain company website, ensuring uptime, content accuracy, and performance optimization.

Business Club — Andinet International HS
Co-Founder & Web Lead — *2025 – Present*
- Co-founded club, built its first website, and led team to hackathon cash prize (30,000 birr to club).

Newspaper Club — Andinet International HS
Treasurer & Web Developer — *2025 – Present*
- Manage club finances and built club's first full-stack website (200+ weekly readers).

MUN — Head of Delegate Training — Addis Ababa
Trainer & Facilitator — *2025 – Present*
- Trained 200+ junior delegates (2 Scholarship, 5 to Best Delegate, 10+ to other honors); facilitator for UNESCO MUN (105 delegates, international certificate).

Science Fair Coordinator — Andinet International HS
Coordinator — *2025 – 2026*
- Coordinated school-wide science fair: logistics, judging panels, and student project submissions.

HONORS & AWARDS

3rd Place Ideeza Hackathon 2026 (5,000 birr team prize) • **1st Place** Debate (Gr9 & Gr10) • **UNESCO MUN Facilitator**
